PROFESSIONAL SUMMARY

Full-stack and mobile developer with 5+ years of experience building and maintaining production systems for sales, logistics, warehouse, and HR operations. Experienced in React, React Native, Node.js, and SQL databases, with strong background in offline-first mobile applications, system integration, and solo end-to-end development.

EDUCATION BACKGROUND

STI College Ortigas Cainta

Ortigas-Cainta, Rizal

Bachelor of Science in Information Technology

SY: 2014-2018

WORK EXPERIENCE

Monheim Group of Companies

📍 *San Isidro, Taytay, Rizal, Philippines*

Programmer | November 8, 2017 – March 16, 2019

- Converted **16 B2B banking data formats** using VB.NET, reducing manual processing and errors.
- Enhanced Android-based **Sales Force Automation** applications to support online updates.
- Developed internal **timekeeping and reporting systems** used by HR and operations.

Rizal Public Utility Vehicle Transport Service & Multi-Purpose Cooperative (RPUVTSMPC)

📍 *Antipolo City, Rizal, Philippines*

System Analyst | May 3, 2019 – January 31, 2022

- Maintained and enhanced a **transport cooperative management system** supporting daily operations.
- Developed a **Loan Management System** using C# WinForms.
- Integrated **CCTV and GPS systems** for vehicle monitoring and reporting.

Monheim Group of Companies

📍 San Isidro, Taytay, Rizal, Philippines

Full-Stack / Mobile Engineer (Solo Developer)

February 14, 2022 – Present

- Designed, developed, and maintained multiple production systems across sales, warehouse, logistics, and HR.
- Built offline-first mobile ordering applications (React Native, Android Java) with end-of-day sync for field agents.
- Developed full-stack web applications using React, Node.js, MSSQL/MySQL/PostgreSQL.
- Implemented warehouse barcode systems integrating mobile apps, desktop tools, and backend APIs.
- Managed databases and servers (MSSQL on Windows Server, PostgreSQL on Linux/Proxmox).
- Implemented CI/CD pipelines using Docker, GitHub Actions, and Jenkins.
- Served as sole technical owner handling requirements, development, deployment, and support.
- Mentored and guided On-the-Job Trainees (OJTs) in web and mobile development, code basics, and system understanding.

TECHNICAL SKILLS

Core Technologies

- **Frontend:** React, React Native
- **Backend:** Node.js, Express
- **Databases:** MSSQL, MySQL, PostgreSQL
- **Mobile:** Android (Java), React Native
- **Desktop:** C#, .NET, VB.NET

DevOps & Tools

- Docker, GitHub Actions, Jenkins
- Windows Server, Linux (Ubuntu, Proxmox)
